## INTRODUCTION LETTER

As you are aware that **Pruthvi Power Tech Corporation** is one of the leading organizations in India & abroad, functioning through India with having its unit & branch offices for **Power Equipment Testing- laboratory** for carrying out Condition Monitoring Test on Power Equipments like **Transformer, Generator, Motor**, etc and carrying out Testing and Calibration of all types of Relays and Measuring instruments

Because of your support and cooperation, we have enlarged our business to manufacturing and servicing of power and distribution transformers. We manufacture products according to the pre-requisite need of the customers. Altering the sizes and capacitance in accordance to individual stipulates; we have managed to deliver prominent transformers of all class to various Government and Public sectors.

We are an ISO 9001:2008 certificate accredited company, engaged in manufacturing and servicing of transformers. We believe not only in manufacturing a quality product but also in educating our esteemed customer about the product in depth. We are an ethical organization, operate with transparency and stick to our commitment with integrity.

We have a back up of well qualified & experienced people of the organization committed to provide a real value for money to our valued client.

We enclose herewith, our company details, product information, as well as technical profile in a nut-shell. We request you to kindly forward us your valued queries and enable us to serve your esteemed organization.

We solicit your patronage to serve you in the best possible way. Kindly oblige us with your enquiry and work orders.

**For Pruthvi Transformers**

**Mr. Vilas Nadgir**

(Business Development Manager)

## LIST OF OUR PRODUCTS MANUFACTURED

### **Power Transformer**

- Generator Transformer
- Unit Auxiliary Transformer
- Station Auxiliary Transformer
- Power Transformer
- Interconnecting Transformer (Auto Transformer)
- Trackside Transformer for Railways

### **Distribution Transformers**

- Hermitically Sealed and Conservator type of construction
- Step-down Transformers
- Step-up Transformers
- Energy Efficient Transformers
- Transformers meant for Solar and Wind Applications
- Transformers meant for Mines Applications

### **Rectifier Transformer**

- Six pulse transformer with IPT
- Twelve pulse with IPT (Double Deck Construction)
- Bridge Connection
- For Railway Traction

## Furnace Transformer

- Arc Furnace Transformer
- Submerged Arc Furnace Transformer
- Ladle Furnace Transformer
- Induction Furnace Transformer
- DC Arc Furnace Transformer

## Reactors

- Shunt Reactors
- Series Reactors
